Backpack V3 Pure Water w/ GH fitting

1 answered question — [Ask a question](#)

QUICK OVERVIEW

- For prolonged battery life and to avoid battery cell damage it is best to keep the battery charged as often as possible, preferably after each use.
- Only charge the unit using the supplied battery charger. Do not use a computer lead or similar.
- If using with chemicals, always ensure that the unit is rinsed out fully and the pump and hose is flushed through for a few minutes with pure water before storage
- Variable Flow Rate
- Separate On-Off Switch
